

T+24 Trial Update

25 April 2016

Operation/Discussion so far

- 1 Jul. 2014 Started T+24 VAG provision on website on a trial basis
- 16 Oct. 2015 Agreed not to continue this trial forever

Topic to Discuss

- ✓ On what status are we?
- ✓ Shall we make T+24 advisory operational in the future? No need?
- ✓ How shall we provide T+24 advisory if we'll make it operational?
- ✓ When can we submit proposals to a relevant meeting?

Future plan

- ?? ??? ???? Submit proposals to a meeting
- ?? ??? ???? Revise Annex 3 if we start T+24 provision operationally

Current status

- Some VAACs obtained feedback from users
 - good to have T+24 advisory
 - OK to have T+24 advisory but may not use
 - no need to have T+24 because of too much uncertainty
 - focus on enhance accuracy for T+18 advisory!!
- User request for the layout in case T+24 becomes operational
 - T+0 in a sheet and T+6 to T+24 in another sheet
 - five charts (T+0 to T+24) in a sheet

Again...

- ✓ On what status are we?
- ✓ Shall we make T+24 advisory operational in the future? No need?

- ✓ How shall we provide T+24 advisory if we'll make it operational?

- ✓ When can we submit proposals to a relevant meeting?
