

**NOAA Climate Database Modernization Program (CDMP)
Imaging Support Task, October 2006—Title: WMO Pub. No. 47 (1973-98)**

Series reference information: WMO (World Meteorological Organization), 1955-: *International List of Selected, Supplementary and Auxiliary Ships*. WMO-No. 47, Geneva, Switzerland. (Serial publication; recently annual. Editions prior to 1966 were titled *International List of Selected and Supplementary Ships*.)

Task background: This is a follow-up to an earlier CDMP task that imaged and digitized WMO-No. 47 editions and supplements for 1955-72, which were previously available only in paper form. Starting with the 1973 edition, the ship metadata contained in the publication were made available digitally by WMO, but not images of the printed material—which this task accomplishes through 1998 (Table 1). Reproduced by permission of the World Meteorological Organization. We gratefully acknowledge the assistance of the UK Met Office in providing photocopies of two editions.

INTRODUCTION

This edition of the "International List of Selected, Supplementary and Auxiliary Ships" contains information, valid on 1 January 1986, supplied by countries listed in the table on page II, in accordance with Regulations 2.3.8.1.5 and 2.3.8.1.6 as contained in the Manual on the Global Observing System, Volume I, Part III.

The List is preceded by two summary tables showing the participation of various countries in the WMO Voluntary Observing Ship Scheme (table on pages II and III) and providing some statistical data (table on pages IV and V) on upper-air observation equipment, telecommunication facilities and number of radio operators on board.

For ease of consultation, an alphabetical index of ships' names has been added at the end of the List. The alphabetical index gives the country heading and the type of ship station (selected, supplementary or auxiliary) under which a given ship appears in the International List.

Full use has been made of electronic data-processing techniques in preparing the International List, the alphabetical index and the summary tables.

INTRODUCTION

Cette édition de la "Liste internationale de navires sélectionnés, supplémentaires et auxiliaires" contient les renseignements, valables au 1er janvier 1986, fournis par les pays énumérés dans le tableau à la page II, conformément aux règles 2.3.8.1.5 et 2.3.8.1.6 qui figurent dans la partie III du Volume I du Manuel du système mondial d'observation.

La Liste est précédée par deux tableaux récapitulatifs indiquant la participation des différents pays au système de navires d'observation bénévoles établi par l'OMM (tableau aux pages II et III) et donnant quelques renseignements statistiques (tableau aux pages IV et V) sur l'équipement d'observation en altitude, les moyens de télécommunications et le nombre d'opérateurs radio à bord.

Pour faciliter la consultation, on a ajouté un répertoire alphabétique des noms des navires à la fin de la Liste. Le répertoire alphabétique indique l'en-tête du pays et le type de station sur navire (navire sélectionné, supplémentaire ou auxiliaire) sous lesquels un navire donné apparaît dans la Liste internationale.

Pour l'établissement de la Liste, du répertoire alphabétique et des tableaux récapitulatifs, il a été tiré pleinement parti des techniques de l'informatique.
