

**NOAA Climate Database Modernization Program (CDMP)
Imaging Support Task, October 2006—Title: WMO Pub. No. 47 (1973-98)**

Series reference information: WMO (World Meteorological Organization), 1955-: *International List of Selected, Supplementary and Auxiliary Ships*. WMO-No. 47, Geneva, Switzerland. (Serial publication; recently annual. Editions prior to 1966 were titled *International List of Selected and Supplementary Ships*.)

Task background: This is a follow-up to an earlier CDMP task that imaged and digitized WMO-No. 47 editions and supplements for 1955-72, which were previously available only in paper form. Starting with the 1973 edition, the ship metadata contained in the publication were made available digitally by WMO, but not images of the printed material—which this task accomplishes through 1998 (Table 1). Reproduced by permission of the World Meteorological Organization. We gratefully acknowledge the assistance of the UK Met Office in providing photocopies of two editions.

INTRODUCTION

This edition of the *International List of Selected, Supplementary and Auxiliary Ships* contains information valid on 1 January 1994 supplied by the countries listed in the Table of Contents in accordance with Regulations 2.2.3.3 and 2.2.3.4 as contained in WMO Publication No. 544 - *Manual on the Global Observing System*, Volume I, Part III.

The List is preceded by two tables providing statistical data on the participation of various countries in the WMO Voluntary Observing Ship Scheme (Table A on pages xii and xiii) and on upper-air observation equipment, telecommunication facilities and number of radio operators on board (Table B on pages xiv and xv).

As a guide to users, an "Index of Ships' Names" can be found after the List. This index lists all the ships in the publication by name in alphabetical order, and indicates the country heading and type of ship station (selected, supplementary or auxiliary) under which a given ship appears in the International List.

A new "Index of Ships' Call Signs" has also been added to this edition following the index of ship's names. Call signs are listed in alphabetical order, following by the other identifying elements in the "Index of Ship's Names" described above.

INTRODUCTION

Cette édition de la *Liste internationale de navires sélectionnés, supplémentaires et auxiliaires* contient les renseignements, valables au 1er janvier 1994, fournis par les pays énumérés dans la Table des Matières conformément aux règles 2.2.3.3 et 2.2.3.4 qui figurent dans la partie III du Volume I de la Publication N° 544 de l'OMM - *Manuel du système mondial d'observation*.

La Liste est précédée par deux tableaux donnant quelques renseignements statistiques sur la participation des différents pays au système de navires d'observation bénévoles établi par l'OMM (Tableau A aux pages xii et xiii) et sur l'équipement d'observation en altitude, les moyens de télécommunications et le nombre d'opérateurs radio à bord (Tableau B aux pages xiv et xv).

Pour faciliter la consultation du présent guide par les utilisateurs, un "Répertoire des noms des navires" est présenté après la Liste. Ce répertoire donne, par ordre alphabétique, le nom de tous les navires qui figurent dans cette publication et indique l'en-tête du pays et le type de station sur navire (navire sélectionné, supplémentaire ou auxiliaire) sous lesquels un navire donné apparaît dans la Liste internationale.

Un nouveau "Répertoire des indicatifs d'appel des navires" a été ajouté à la présente édition et se trouve à la suite du répertoire des noms des navires. Les indicatifs d'appel y figurent par ordre alphabétique, suivis des autres éléments d'identification qui se trouvent dans le "Répertoire des noms des navires" décrit ci-dessus.
