

Item 10.2 (& 11.2): Buoy data management centres

- DMCG-IV discussed integration of
 - JCOMM Specialized Oceanographic Data Centre for Drifting Buoys (SOC/DB)
 - JCOMM/IODE Responsible National Oceanographic Data Centre for Drifting Buoys (RNODC/DB)
 - VOSCLim Real-Time Monitoring Centre (RTMC)
- Into a single system of data centres contributing to the Ocean Data Portal (ODP) and with specialized functions (archive, monitoring, QC, ...)
- Other RNODCs being contacted
- SOC/DB & RNODC/DB to discuss with DMCG
- Feedback to be submitted to Chair, DMCG, Sissy Iona
- **Proposal to be made by *ad hoc* task group by end of 2010**
- **Target: JCOMM-IV in 2012**
