## VOSP002 Metadata Viewer

## Instructions

	VOSP002 Metadata Viewer (v1)											
	General											
1 2 3	Select <mark>Enable Macros</mark> when the spreadsheet opens. If an opening message advises that macros are disabled, select Tools >> Macro >> Security >> Medium. Close then reopen the spreadsheet. To keep a record of the VOSP002 metadata for this ship, save this spreadsheet as "9225005 - VOSP002 Viewer.xls											
	Extract data from Form VOSP002											
1 2 3	Open the Form VOSP002 containing the data you want to extract. From the Word menu bar, select Tools >> Options >> Save >> Save data only for forms. Do not change any other settings. Press OK. From the Word menu bar, select File >> Save Copy As. Select the destination and name of the TXT file. Press Save.											
	CSV Data sheet											
1 2 3 4 5 6	Highlight the entire rows 1 & 2 and press the delete key to remove the existing data. Click in cell A1. Import the new CSV VOSP002 metadata using Data >> Import External Data >> Import Data >> TXT file created above. Text Import Wizard Step 1 of 3: Original data type = Delimited   Start at Row: 1   File Origin: Windows (ANSI). Press Next. Text Import Wizard Step 2 of 3: Delimiters = comma   Text qualifier = ". Press Next. Text Import Wizard Step 3 of 3: Select each date column in the Data preview window and set Column data format = Text. Press Finish. Import Data: Existing worksheet: =\$A\$1. Press OK. Press CTRL+M to replace any occurrence of the & symbol in the new CSV VOSP002 metadata with the + symbol. Copy (CTRL+C) the entire row 1 to the next blank row under Past VOSP002 returns to maintain a permanent record of the metadata. Copy (CTRL+C) the previous row of CSV VOSP002 metadata then paste (CTRL+V) into row 2 (A2). Add the recruitment and de-recruitment dates for the VOS and VOSClim in cells B4, B5, B7 & B8 as appropriate.											
	Viewer sheet											
1 2	Select the VIEWER tab to compare the new and previous CSV VOSP002 metadata sets. Any changes between successive metadata sets will be indicated by CHANGED in the cells with a red background.											
1 2 3	Pub47 sheet           Update the footnotes in cells D7-D29 & F7-F29 as appropriate. The footnotes extracted from the Form VOSP002 are listed for reference in cells B7-B12.           Select row 3. Press CTRL+C to copy the row.           Paste the selection into the first blank row on the Metadata sheet in the Pub47 XML Generator using Edit >> Paste Special >> Values.           E-SURFMAR sheet											
1 2 3	Copy (CTRL+C) the entire row 2. Paste (CTRL+V) into a text editor and name the file as suggested in row 1. Import into the E-SURFMAR database using the appropriate CSV import facility.											

Developed by Graeme Ball, ABOM, 20 May 2008, for the SOT Task Team on VOS Recruitment & Programme Promotion (TT-VRPP).

# Pub47 XML Generator

## Instructions

### WMO No. 47 Metadata Version 3 XML Generator (v2)

This spreadsheet can be used as a "stand-alone" product or used in conjunction with form VOSP002 and the VOSP002 CSV Viewer (v1) spreadsheet.

### General

1 Select Enable Macros when the spreadsheet opens.

2 If an opening message advises that macros are disabled, select Tools >> Macro >> Security >> Medium. Close then reopen the spreadsheet.

#### Metadata sheet

- 1 Set the RCNTY (recruiting country) in cell F1. Use the 2 character code from WMO No. 47 Metadata Version 3 Table 1801.
- 2 Only add or edit metadata in cells with a light torquoise background. Note: Do not use the & symbol, if necessary use the + symbol.
- 3 Add a new record in the first blank row.
- 4 Delete a record by clicking the row number (this selects the entire row) and pressing the DELETE key.
- 5 When finished adding or deleting a ship, press CTRL+S to automatically sort the ships alphabetically by name.

#### XML Report sheet

- 1 Press CTRL+X to simultaneously select and copy the formatted metadata.
- 2 Paste into a text editor then delete all blank rows. Note: the last line is not blank.
- 3 Save the file using the filename proposed in the first row.
- 4 Send the XML file as an email attachment to pub47@wmo.int .
- 5 Submit the XML file to WMO by 15 January, 15 April, 15 July, 15 October and valid at the end of month prior to the due date.

Developed by Graeme Ball, ABOM, 17 May 2008, for the SOT Task Team on Metadata for WMO No. 47 (TT-Pub47).
