

Commission for Hydrology

- Quality Management Framework
- Data Operation and Management
- Water ML2.0
- Water Resources Assessment
- Hydrological Forecasting and Prediction
- Water, Climate and Risk Management

Commission for Hydrology

- Assessment of the Performances of Flow Measurement Instruments and Techniques

http://www.wmo.int/pages/prog/hwrp/Flow/flow_tech/index.php

- QMF Web site

<http://www.wmo.int/pages/prog/hwrp/qmf-h/index.php>

- Note on stationarity and non-stationarity

http://www.wmo.int/pages/prog/hwrp/publications/statements/Stationarity_CHy_Statement.pdf

Commission for Hydrology

- MCH Data Management System
- HWR Guidance material translations
- Communities of Practice
- DEWETRA

Other activities

- APFM Tools
- APFM Training
- Flash Flood Guidance (Black Sea and Middle East, South East Europe)
- Flood Forecasting Initiative
- UNECE: adaptation to climate change in transboundary rivers
- Sava Data Exchange Policy
- Arctic HYCOS

Global Framework for Climate Services

Intergovernmental Board on Climate Services (IBCS-1) held in Geneva, Switzerland in July 2013,

- adopted the Implementation Plan
- established a Partners Advisory Committee (PAC) as a stakeholder engagement mechanism;
- established the Management Committee of the IBCS.
- Technical Support Unit (TSU) of the Integrated Drought Management Programme (IDMP)
