

Overview – Session 4

- **Topic 0:** The DRR FP RA-TC-TP as one of the main governance mechanisms for the DRR Programme
- **Topic 1:** Nature and role of the DRR User-Interface Expert Advisory Groups (UI-EAGs) as an DRR Programme implementation mechanism
- **Topic 2:** Discussion on the WMO DRR Roadmap & Work Plan 2016-17 incl. milestones & deliverables (per thematic area / pillar) such as:
 - Cataloguing of extreme weather, water, climate, space weather events
 - Southeast Europe (SEE) Early Warning Platform
 - In-MHEWS
 - IC-MHEWS
- **Topic 3:** Recommendations for inter- & intra-commission/-programme engagement to implement WMO DRR Roadmap & Work Plan 2016-17
- **Topic 4:** Monitoring and reporting to WMO constituent bodies and governing mechanisms (EC and Congress)

Draft Recommendations

- **Topic 0: The DRR FP RA-TC-TP as one of the main governance mechanisms for the DRR Programme**
 - The Meeting recommended that the FP RA-TC-TP would ensure coordination within and across RAs, TCs, and TPs as well as related WMO initiatives (such as WIGOS and WIS);
 - The Meeting recognized that the DRR FP RA-TC-TP serve as a mechanism for inter-commission/-programme coordination and engagement for the implementation of the WMO DRR Roadmap & Work Plan 2016-17;
 - The Meeting recommended that the PTC and PRA provide guidance to the work of the DRR FP RA-TC-TP;
 - The Meeting agreed the DRR FP RA-TC-TP would seek direction from and provide recommendations to the EC WG on DRR;
 - The Meeting proposed that the UI-EAGs report to the DRR FP RA-TC-TP;
 - The Meeting proposed that the DRR FP RA-TC-TP would provide guidance and specific direction to the work plans and the TORs of the DRR User-interface Expert Advisory Groups (UI-EAGs) as a key implementation mechanisms of the DRR Programme;
 - The Meeting developed draft TORs of the DRR FP RA-TC-TP for consideration by the EC WG on DRR and approval by EC-68.
 - The Meeting agreed to the following working arrangements (within available resources): Meet on an annual basis face-to-face, organize quarterly teleconferences

Draft Recommendations

- **Topic 1:** Nature and role of the DRR User-Interface Expert Advisory Groups (UI-EAGs) as an DRR Programme implementation mechanism
 - The Meeting agreed that the DRR FP RA-TC-TP will review the membership and (draft) TORs of each of the UI-EAGs → agenda item for the next teleconference
Action: circulate Doc 8 (incl. a name list of current members / participants of previous meetings);
 - The Meeting agreed that the DRR FP RA-TC-TP have the authority to initiate or cease individual UI-EAGs;
 - The Meeting highlighted that the outputs of the UI-EAGs serve as an important contribution to the GFCS process;
 - The Meeting agreed that the DRR FP RA-TC-TP will review the outputs of the UI-EAGs and provide direction on their future activities.

Draft Recommendations

- **Topic 2:** Discussion on the WMO DRR Roadmap & Work Plan 2016-17 incl. milestones & deliverables (per thematic area / pillar) such as:
 - Cataloguing of extreme weather, water, climate, space weather events
 - Southeast Europe (SEE) Early Warning Platform, IN-MHEWS, IC-MHEWS
- The Meeting took stock of the Cg-17 decisions and developed a draft DRR Work Plan;
Action: Incorporate feedback from Members received thus far on the WMO DRR Roadmap and circulate a new draft to the DRR FP RA-TC-TP and to the former drafting team, and then to WMO Members prior to submission to the EC WG on DRR and EC-68
Action: Further development of the DRR Work Plan (as an Annex to the DRR Roadmap, to be updated regularly/annually) for further consultation;
Action specifically related to the SE Asia integrated multi-hazard pilot project: The Secretariat will circulate the existing proposal for a DRR demonstration project in SE Asia for comments on how best to reorientate the proposal towards strengthening MHEWS in the region through a phased approach

Draft Recommendations

- **Topic 3:** Recommendations for inter- & intra-commission/-programme engagement to implement WMO DRR Roadmap & Work Plan 2016-17

(recommended to include topic 3 in topic 0)

Draft Recommendations

- **Topic 4:** Monitoring and reporting to WMO constituent bodies and governing mechanisms (EC and Congress)
 - The Meeting recommended that existing DRR Programme Key Performance Indicators (KPIs) be circulated to the DRR FP RA-TC-TP for review and recommended alternatives (to be submitted to the appropriate WMO body);
 - The Meeting recommended that the 2016 WMO DRR Survey should be as concise as possible and include questions derived from relevant Sendai Framework indicators and WMO Programme KPIs (with a focus on science and MHEWS);
 - The Meeting agreed to report on the DRR FP RA-TC-TP's activities and progress to the PTC/PRA and to EC WG on DRR on an annual basis;
