Grouping of Challenges to HydroSOS

Yes – Many challenges but we have made a start here

Responsibility of delivery of HydroSOS lies with all of us

Need to build a community for HydroSOS for it to be successful

Raise awareness by talking about the work we have started here

Thinking on the **Challenges** for HydroSOS:

Generally: can these challenges be overcome?

Any new ones to include?

Thinking on the **Wishes** for HydroSOS:

Generally: are these still relevant?

Any missing?

Processes to be inclusive – who else to involve
in HydroSOS

Thank You
