# South Asia Flash Flood Guidance (SAsiaFFG) Project Project Management

# Project Steering Committee

- Project steering committee will consists of delegates from WMO, RC, NHMSs, Hydrologic Research Center and USAID such that each will be represented with one delegate. On the other hand if deemed necessary, additional experts/representatives might attend the PSC meeting on an ad-hoc basis as required. WMO will work with PSC members in coordination and steering of the project.

# Common Principle

- Data providers remain owners of their data;
- Access to data and information generated by the project for project partners and beyond – where applicable – as per WMO Resolutions 25 (CG-XIII) and 40 (CG-XII);
- Services provided by Technical Development Partner (HRC) and the Regional Centre are of an Advisory Nature;
- Full responsibility for provision of national guidance and warning services remains with the NMHSs.

# Cooperation Agreement

- Formal Cooperation Agreements are to be signed between WMO and the Regional Centres to ensure delivery of the products and services pertinent to SAsiaFFG System and sustainability.
