Serbia – Emergency Declared after Floods Force Hundreds to Evacuate

7 MARCH, 2016 BY RICHARD DAMICS IN EUROPE NEWS

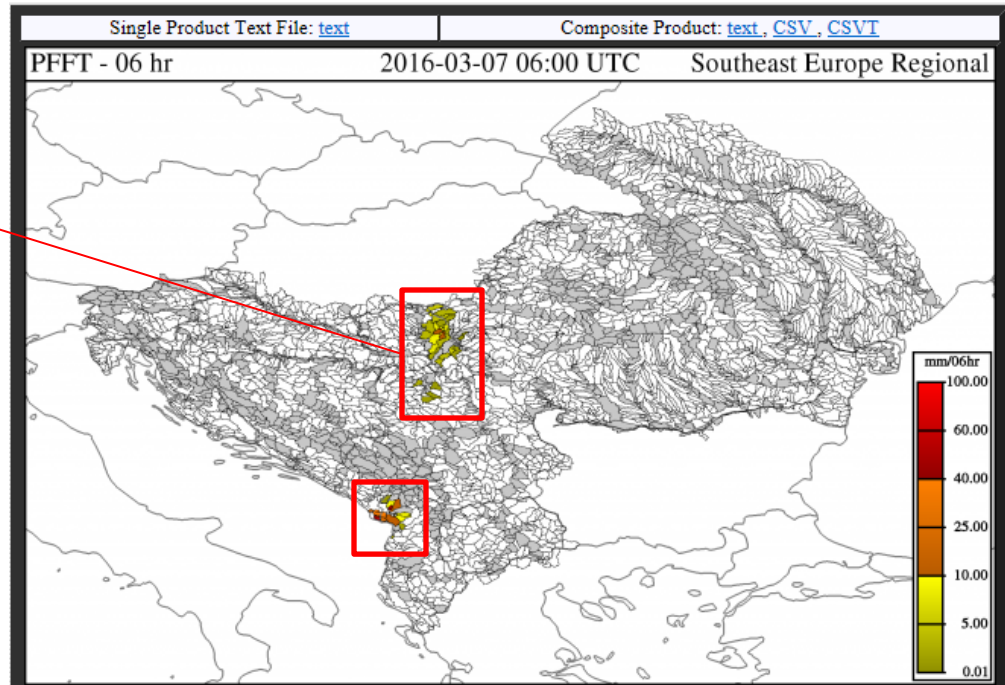

The Serbian Interior Ministry declared an emergency situation on Monday 7 March 2016, after floods hit the municipalities of Čačak, Lucani and Anilje in central and eastern Serbia.

Areas of the country recorded heavy rainfall that began late on Sunday. The Cernica river broke its bank early on 07 March and flooded around 500 houses in the villages of Konjevici and Preljna. The Serbian government said that 420 people were evacuated.

Serbian Prime Minister Aleksandar Vucic visited Preljna in Čačak, one of the worst hit areas, earlier today.

The heavy rain also caused a landslide in the Bajina Basta municipality, damaging homes and roads in the area.

Local and national government authorities will start making assessments of the damage and sending aid tomorrow.
