

# Regional Flash Flood Guidance System South Asia

## Role of NOAA/NWS in FFG Programs

- **Signatory on the Memorandum of Understanding on Global FFG Programs with WMO, USAID/OFDA and HRC**
- **Technical Partner**
  - Provides support to development and operations of regional systems
  - Makes available global satellite-based precipitation estimates (e.g., Global HydroEstimator from NESDIS)
  - Makes available archived historical meteorological data (National Climatic Data Center)
  - Provides support to FFG training programs in the U.S. (national centers, RFC and WFO visits)
