# Next Steps for SAOFFG (12 July 2017)

**Step 1 Training Workshop** – this SCM1 and training workshop (**10-12 July 2017**)

Countries transmit **historical & spatial data** to HRC via Regional Center FTP – (**15 August 2017**)

HRC re-distributed initial **delineation results** in GIS format (**31 July 2017**) and Countries provide feedback comments (**31 August 2017**)

Coordination between **Regional Center** and **Countries** (WMO, HRC support as needed) for transmission through Regional Center of Country **real-time data and NWP forecasts**

**Step 2 Training** – online FFGS 5-Course Completion by **Country** Forecaster Designees

HRC provides access to **initial version of operational SAOFFG** to Country NMHSs

**Step 3 Training** – Hands-on Training for Country forecasters at HRC

- WMO process for travel, visas, etc.
- Country representations to bring any additional historical data for final calibration and validation.

**Implementation at Regional Center** and IT Training by HRC

**Step 4 Training** – Operations Training within Region by trained country forecasters with

**WMO** Certification of Trained Country Forecasters (after Operations Training)

System Maintenance and Stakeholder Workshops organized by **Countries**
