

Agenda 4 – Group 1

Overall coordination mechanism
between WMCs and WMCs/RSCs to
support Members

Leveraging existing Coord Mechanism, Req for efficient coordination mechanism

Q1: How can we leverage pre-existing coordination mechanism, programmes, for example Africa Hydromet, RIMES and others?

- **Sharing experience of each others**
 - China to be more visible with their models outputs ...
 - Catalogues of products and services necessary
- **Strengthen communication between centres**
 - Optimize WMCs and RMSCs collaboration
 - Need WMC coordination focal points

Leveraging existing Coord Mechanism, Req for efficient coordination mechanism

- Q2 How can we attract strong interest from donor and stakeholders?
 - Private sector hungry for information...Establishment of a consortium to understand their plan and needs
 - Forum with private sectors to determine and support their needs in a win-win approach
 - Develop material to explain to Donors our capabilities (docs, video etc). For example in relation to DRR events
 - Highlight our successes in supporting LDCs/SIDS (SWFDP, CIFDP, FFGS, etc)
 - Ensure we remain within the policy on partnership (once established by Cg)

Design of coordination mechanism and roles of each players

Q1. What attributes are necessary for efficient coordination mechanism between WMCs and WMCs/RSMCs in serving Members and Partners?

- WMC workshop every two years to discuss
 - Regular meetings: VC and face-to-face
 - Identification of one GDPFS focal point per country
- Establishment of coordination team
 - Identification of focal points of WMCs
 - Develop TORs – Can use an example of ToR for GISC
 - Annual rotation of chair among WMCs
- Linkage with WGNE

Q2: What will take to design and impl a coordination mechanism?

- Attributes:
 - Time and \$;

In Summary – Skeleton of the CM

- WMC workshop every two years to discuss
 - Regular meetings: VC and face-to-face
 - Identification of one GDPFS focal point per country
- Establishment of coordination team
 - Identification of focal points of WMCs
 - Develop TORs – Can use an example of ToR for GISC
 - Annual rotation of chair among WMCs
- Linkage with WGNE
