

Annex I, page 6

5. Argos monthly status report

5.1 As of 25 November 1985, the Argos service was handling reports from 369 drifting buoys, 67 moored buoys, 0 balloons, 23 ships, 244 fixed stations and 19 miscellaneous platforms. During the last 24 hours, the number of DRIBU reports transmitted to RTH Paris from 130 drifting buoys is not available. The list of platforms reporting through Argos and distributed over the GTS is given below.

Note

Members operating Argos Local Users Terminals (LUTs) are invited to submit to the Secretariat by telex, the list of platforms entering reports into the GTS through their LUTs, effective on or around the 20th of each month.

6. Feed-back from Members to the Secretariat on any changes in the observing network

In view of the difficulties experienced at present in identifying non-implemented observing stations or implemented stations which are closed or suspended for a certain period, or stations making observations but not reaching their NMCs, the ninth session of the CBS Advisory Working Group recommended that a special table be added to the WWM monthly operational letter to serve as feed-back from Members to the Secretariat on any changes of the present state of implementation of observing programmes of SYNOP, TEMP and PILOT reporting stations.

The special table, accompanied by explanatory notes overleaf, is attached as an appendix to this annex. Members are urged to fill in this appendix, as and when appropriate, and to return it to the Secretariat before the 1st of each month to enable changes to be included in the next monthly letter.
