GENEVA, 31 May 1990

Subject : Monthly letter on the operation of the World Weather Watch (WWW) and Marine Meteorological Services (MMS) (May 1990)

Action required : To be noted and brought to the attention of appropriate operational units

Dear Sir/Madam,

As you are aware, all the information on changes to the operation of the World Weather Watch (WWW) and Marine Meteorological Services (MMS) is being assembled and distributed by the Secretariat on a monthly basis to facilitate updating and follow-up action.

In this connection, please find attached the annexes providing the latest operational information on WWW and MMS. Those items and sub-items for which information is provided are listed below:

Annex I - Global Observing System

C. Information on operational status of elements of the surface-based sub-system

1. Publication No. 9, Volume A - Stations

- 1.1 New stations
- 1.3 Changes to existing stations

4. Automatic marine stations

To: Permanent Representatives (or Directors of Meteorological or Hydro-meteorological Services) of Members of WMO (PR-4498)
Directors of Meteorological Services of non-Member countries (MC-2430)
Presidents and Vice-Presidents of Regional Associations (P.RA-1242)
Presidents and Vice-Presidents of Technical Commissions (P.TC-1359)
Chairmen of CBS Working Groups
Secretary-General of ICAO
Director-General of IATA
Secretary of IOC
Director-General of ASECNA
Director of ECMWF

5. ARGOS service

5.1 ARGOS monthly status report

6. Feed-back from Members to the Secretariat on any changes in
the observing network

Annex II - Global Data-Processing System

B. Information on operational status of GDPS including changes to WMO
Publication No. 9 - Volume B

2. RSMC output products

2.3 Changes to products

Annex III - Global Telecommunication System

C. Information on the operation of the GTS

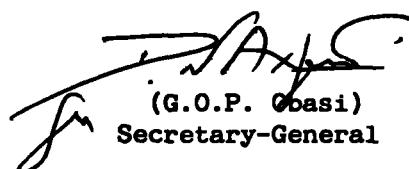

1. Catalogue of Meteorological Bulletins (Publication No. 9,
Volume C, Chapter I)

1.3 Changes to bulletins

The CBS Advisory Working Group recommended that a special table should be added to the monthly letter to report changes of the present status of implementation of observing programmes of SYNOP, TEMP and PILOT reporting stations. You will note, therefore, that a new item, number 6, "Feed-back from Members to the Secretariat on any changes in the observing network" has been added to Annex I - Global Observing System.

Your co-operation in ensuring that the above information reaches the appropriate operational units of your service is greatly appreciated. If you wish to receive additional copies of the monthly circular letter, please inform the Secretariat accordingly.

Yours faithfully,

J.A. Obasi
(G.O.P. Obasi)
Secretary-General

Annex I - Global Observing System

Canada

Data from moored and drifting buoys are collected via geostationary and polar orbiting satellites respectively. Meteorological reports from moored buoys using FM 13-IX SHIP code are distributed on the GTS from the Direct Readout Station located in Vancouver, B.C. Reports from drifting buoys are received at the Argos Local User Terminal in Edmonton and distributed on the GTS using the FM 14-VIII DRIBU code.

United States of America

List of U.S.A. Ocean Data Acquisition System (ODAS) included in the May 1990 Data Platform Status Report of the Data Buoy Centre of the National Oceanic and Atmospheric Administration (NOAA). Data from moored buoys and platforms are collected by geostationary meteorological satellites and reports are distributed on the GTS in SHIP code. Data from drifting buoys are collected by the Argos system and distributed on the GTS in DRIBU code.

5. ARGOS service5.1 ARGOS monthly status report

As at 2 May 1990, the Argos service was handling reports from 611 drifting buoys, 97 moored buoys, 1 balloon, 234 ships, 114 animal trackings, 423 fixed stations and 38 miscellaneous platforms. DRIBU reports from 60 drifting buoys, SHIP reports from 28 selected ships and BATHY reports from 18 selected ships were transmitted to the RTH Paris and DRIBU reports from 200 drifting and moored buoys were transmitted to the WMC Washington for insertion into the GTS. The list of platforms reporting through Argos and distributed over the GTS is given below.

+ PTT's which were removed from GTS during the month.

Note

Members operating Argos Local Users Terminals (LUTs) are invited to submit to the Secretariat by telex, the list of platforms entering reports into the GTS through their LUTs, effective on or around the 20th of each month.

6. Feed-back from Members to the Secretariat on any changes in the observing network

In view of the difficulties experienced at present in identifying non-implemented observing stations or implemented stations which are closed or suspended for a certain period, or stations making observations but not reaching their NMCs, the ninth session of the CBS Advisory Working Group recommended that a special table be added to the WWW monthly operational letter to serve as feed-back from Members to the Secretariat on any changes of the present state of implementation of observing programmes of SYNOP, TEMP and PILOT reporting stations.

The special table, accompanied by explanatory notes overleaf, is attached as an appendix to this annex. Members are urged to fill in this appendix, as and when appropriate, and to return it to the Secretariat before the 1st of each month to enable changes to be included in the next monthly letter.

Feed-back from Members to the Secretariat on any changes in the observing network
(explanatory notes overleaf)

Global Exchange/Regional Exchange (delete as appropriate)		Country: _____		
Station index number	Bulletin identification TTAAii CCCC	Implementation of observing programme 00 03 06 09 12 15 18 21	Alternate observing station	Remarks

1. SYNOP

2. TEMP

3. PILOT

Explanatory notes for Feed-back from Members to the Secretariat on any changes in the observing network

1. Separate tables should be prepared for global exchange and regional exchange respectively. These tables should contain information concerning any changes of the present state of implementation of observing programmes of SYNOP, TEMP and PILOT reporting stations given in Attachment I-4 of the Manual on the GTS, Volume I for global exchange and, as applicable, Attachments AF-I, AI-1, SA-1, NA-1, PS-1 and EU-1 of the Manual on the GTS, Volume II for regional exchange.
2. For entries in these tables, the following should be taken into account:
 - (a) In the column "Station index number", the index number (IIii) of each station should be entered in case of any changes in the observing programmes of the stations;
 - (b) In the column "Bulletin identification", the TTAAii CCCC of the abbreviated heading of the meteorological bulletins which contains reports from the station should be inserted;
 - (c) In the column "Implementation of observing programme", "X" for implementation and "--" for non-implementation should be inserted as appropriate. In order to easily identify changes in the programme, this should be marked in red;
 - (d) In the column "Alternate observing station", the index number (IIii) of an alternate observing station should be inserted in case another station is available with a view to filling gaps which are caused by suspension of observing programmes of the original station;
 - (e) The required information concerning the observing programme of the alternate station should be inserted in the next horizontal line of the original station;
 - (f) In the column "Remarks", reasons of temporary suspension of observing programmes and an expected date of resumption of the programmes should be given as far as possible. Non-standard collection and/or distribution times should also be included.
3. These tables should be sent to the Secretariat before the 1st of the month for inclusion of the changes in the monthly operational letter, as appropriate.

Annex II - Global Data-Processing System

Date: May 1990

B. Information on operational status of GDPS including changes to WMO Publication No. 9 - Volume B

2. RSMC output products

2.3 Changes to products

European Centre for Medium-Range Weather Forecasts (ECMWF)

The range of products disseminated over the GTS by ECMWF and listed in the monthly letter of March 1990 has been modified. With effect from 1 August 1990, for products based on data for 12:00 UTC, ECMWF plans to extend the forecast range to 6 days for both the Northern and Southern Hemispheres. The corrected announcement of the changes together with the updated specification and description of bulletin headings is given under item C. 1.3 of Annex III to this letter.

Products in FM 47-V GRID will be unchanged with respect to content and format; additional 5 degree products will be added to extend the range of the Northern hemisphere and Southern hemisphere forecasts to 6 days. The 2.5 degree resolution GRID products of an experimental nature for the South East Asia areas will remain unchanged.

The specification for products in FM 92-VIII Ext. GRIB will be changed to extend the area covered by the Northern and Southern hemisphere products to the equator, and to extend their range to 6 days. Areas Areas 1, 2, 3 and 4 (Northern hemisphere), 9, 10, 11 and 12 (Southern hemisphere) will be changed, while areas 5, 6, 7 and 8 (tropical belt) will remain unchanged. The new description of the GRIB products follows:

Resolution: 2.5 degrees by 2.5 degrees/

Areas: 12 areas defined as:

Area	A _i	Lat ₁	Lat ₂	Long ₁	Long ₂
1	A	90°N	0	90°W	0
2	B	90°N	0	180°W	90°W
3	C	90°N	0	90°E	180°E
4	D	90°N	0	0	90°E
5	E	35°N	35°S	90°W	0
6	F	35°N	35°S	180°W	90°W
7	G	35°N	35°S	90°E	180°E
8	H	35°N	35°S	0	90°E
9	I	0	90°S	90°W	0
10	J	0	90°S	180°W	90°W
11	K	0	90°S	90°E	180°E
12	L	0	90°S	0	90°E

Parameters: Surface (MSL) pressure, 850 hPa temperature, 500 hPa geopotential height (Northern and Southern hemisphere), 850 hPa u- and v- components of wind (tropical belt).

Valid times: Analysis, 1, 2 and 3 day forecasts (all products); 4, 5 and 6 day forecasts (products for areas 1, 2, 3, 4, 9, 10, 11 and 12 only).

Annex III - Global Telecommunication System

Date: May 1990
