GENEVA, 31 May 1991

Subject : Monthly letter on the operation of the World Weather Watch (WWW) and Marine Meteorological Services (MMS) May 1991

Action required : To be noted and brought to the attention of appropriate operational units

Dear Sir/Madam,

As you are aware, all the information on changes to the operation of the World Weather Watch (WWW) and Marine Meteorological Services (MMS) is being assembled and distributed by the Secretariat on a monthly basis to facilitate updating and follow-up action.

In this connection, please find attached the annexes providing the latest operational information on WWW and MMS. Those items and sub-items for which information is provided are listed below:

Annex I - Global Observing System

C. Information on operational status of elements of the surface-based sub-system

1. Publication No. 9, Volume A - Stations

- 1.1 New stations
- 1.3 Changes to existing stations
- 1.5 Temporary changes

3. Mobile sea stations

3.2 Automated Shipboard Aerological Programme (ASAP)

To: Permanent Representatives (or Directors of Meteorological or Hydro-meteorological Services) of Members of WMO (PR-4622)
 Directors of Meteorological Services of non-Member countries (MC-2447)
 Presidents and Vice-Presidents of Regional Associations (P.RA-1270)
 Presidents and Vice-Presidents of Technical Commissions (P.TC-1388)
 Chairmen of CBS Working Groups
 Secretary-General of ICAO
 Director-General of IATA
 Secretary of IOC
 Director-General of ASECNA
 Director of ECMWF

4. Automatic marine stations

5. ARGOS Service

5.1 ARGOS monthly status report

6. Feed-back from Members to the Secretariat on any changes in the observing network

Annex III - Global Telecommunication System

A. GTS regulatory or guidance material

3. Amendments to the Manual on the Global Telecommunication System

C. Information on the operation of the GTS

1. Catalogue of Meteorological Bulletins (Publication No. 9, Volume C, Chapter I)

1.3 Changes to bulletins

2. Transmission schedules (Publication No. 9, Volume C, Chapter II)

2.3 changes in schedules/technical specifications

Annex V - Marine Meteorological Services (MMS) and related oceanographic activities

C. Information on the operation of Marine Meteorological Services

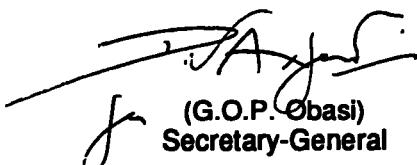

1. Broadcasts for shipping and other marine activities (Publication No. 9, Volume D, Part A)

1.3 Changes in schedules/technical specifications

The CBS Advisory Working Group recommended that a special table should be added to the monthly letter to report changes of the present status of implementation of observing programmes of SYNOP, TEMP and PILOT reporting stations. You will note, therefore, that a new item, number 6, "Feed-back from Members to the Secretariat on any changes in the observing network" has been added to Annex I - Global Observing System.

Your co-operation in ensuring that the above information reaches the appropriate operational units of your service is greatly appreciated. If you wish to receive additional copies of the monthly circular letter, please inform the Secretariat accordingly.

Yours faithfully,

J. G.O.P. Obasi
Secretary-General

Annex I - Global Observing System

Date: May 1991

C. Information on operational status of elements of the surface-based sub-system

1. Publication No. 9, Volume A - Stations

1.1 New Stations

03840 DUNKESWELL 50°52'N 03°14'W - 255 X X XX X X X X H00-24 . . . /
AERODROME

1.3 Changes to existing stations

1.5 Temporary changes

Notification from Argentina that radiosonde/radiowind observations have been resumed at station 87576 EZEIZA AERO as from 0000 UTC on 1 April 1991.

And from 0000 UTC on 1 May 1991 at the following stations:

87047 SALTA AERO
87418 MENDOZA AERO
87623 SANTA ROSA AERO
87715 NEUQUEN AERO
87860 COMODORO RIVADAVIA AERO

3. Mobile sea stations

3.2 Automated Shipboard Aerological Programme (ASAP)

Canada (ASAP messages - call-sign change)

- One of the ASAP ships is changing ownership and so the call-sign in the messages is changing, as well as the ship's name. The transmitter platform I.D., timeslots and channel number are not being affected.
- The ship is the SKEENA, call-sign ZSCK. The new name is SKAUBRYN and the new call-sign is LAJV4.
- This change was made on 21 March 1991.

4. Automatic marine stations

Canada

Data from moored and drifting buoys are collected via geostationary and polar orbiting satellites respectively. Meteorological reports from moored buoys using FM 13-IX SHIP code are distributed on the GTS from the Direct Readout Station located in Vancouver, B.C. Reports from drifting buoys are received at the Argos Local User Terminal in Edmonton and distributed on the GTS using the FM 14-VIII DRIBU code.

5. ARGOS service**5.1 ARGOS monthly status report**

As at 5 May 1991 the Argos service was handling reports from 628 drifting buoys, 129 moored buoys, 2 balloons, 25 ships, 114 animal trackings, 400 fixed stations, 244 boats and 26 miscellaneous platforms. DRIBU reports from 78 drifting buoys and BATHY reports from 26 selected ships were transmitted to the RTH Paris and DRIBU reports from 242 drifting buoys were transmitted to the WMC Washington for insertion into the GTS. The list of platforms reporting through Argos and distributed over the GTS follows:

6. Feed-back from Members to the Secretariat on any changes in the observing network

In view of the difficulties experienced at present in identifying non-implemented observing stations or implemented stations which are closed or suspended for a certain period, or stations making observations but not reaching their NMCs, the ninth session of the CBS Advisory Working Group recommended that a special table be added to the WWW monthly operational letter to serve as feed-back from Members to the Secretariat on any changes of the present state of implementation of observing programmes of SYNOP, TEMP and PILOT reporting stations.

The special table, accompanied by explanatory notes overleaf, is attached as an appendix to this annex. Members are urged to fill in this appendix, as and when appropriate, and to return it to the Secretariat before the 1st of each month to enable changes to be included in the next monthly letter.

Feed-back from Members to the Secretariat on any changes in the observing network
 (explanatory notes overleaf)

Global Exchange/Regional Exchange (delete as appropriate)

Country: _____

Station index number	Bulletin identification TTAAii CCCC	Implementation of observing programme								Alternate observing station	Remarks
		00	03	06	09	12	15	18	21		

1. SYNOP

2. TEMP

3. PILOT

Explanatory notes for Feed-back from Members to the Secretariat on any changes in the observing network

1. Separate tables should be prepared for global exchange and regional exchange respectively. These tables should contain information concerning any changes of the present state of implementation of observing programmes of SYNOP, TEMP and PILOT reporting stations given in Attachment I-4 of the Manual on the GTS, Volume I for global exchange and, as applicable, Attachments AF-I, AI-1, SA-1, NA-1, PS-1 and EU-1 of the Manual on the GTS, Volume II for regional exchange.
2. For entries in these tables, the following should be taken into account:
 - (a) In the column "Station index number", the index number (IIiii) of each station should be entered in case of any changes in the observing programmes of the stations;
 - (b) In the column "Bulletin identification", the TTAAii CCCC of the abbreviated heading of the meteorological bulletins which contains reports from the station should be inserted;
 - (c) In the column "Implementation of observing programme", "X" for implementation and "-" for non-implementation should be inserted as appropriate. In order to easily identify changes in the programme, this should be marked in red;
 - (d) In the column "Alternate observing station", the index number (IIii) of an alternate observing station should be inserted in case another station is available with a view to filling gaps which are caused by suspension of observing programmes of the original station;
 - (e) The required information concerning the observing programme of the alternate station should be inserted in the next horizontal line of the original station;
 - (f) In the column "Remarks", reasons of temporary suspension of observing programmes and an expected date of resumption of the programmes should be given as far as possible. Non-standard collection and/or distribution times should also be included.
3. These tables should be sent to the Secretariat before the 1st of the month for inclusion of the changes in the monthly operational letter, as appropriate.

Annex III - Global Telecommunication System

Date: May 1991

A. GTS regulatory or guidance material

3. Amendments to the Manual on the Global Telecommunication System

Recommendations adopted by CBS Ext. (90)

At its extraordinary session (London, 24 September - 5 October 1990), CBS adopted three recommendations for amendment to the Manual on the GTS. Volume I, Parts I, II and III respectively.

The recommendation relating to Part I, with effect from 1 September 1991, includes a revision of paragraphs 1 to 3. It also includes provisions for the global exchange of Parts A, B, C and D of TEMP, PILOT, TEMP SHIP, PILOT SHIP, TEMP MOBIL and PILOT MOBIL, as well as new procedures for the annual global monitoring (see also WMO letter W/SY/T.9 (PR. 4569) dated 15 January 1991).

The recommendations relating to Part II and III, with effect from 1 November 1991, include provisions to delete the groups CLLLL and CFFFF from the starting line of the meteorological messages. They also include amendments to the allocation of abbreviated headings, in particular to the tables A, B1, B2, C3, C5 and D, and provisions to add new tables relating to messages in bit-oriented code forms. The other amendments are related to the introduction of virtual calls (VC) services in the network layer and of a limit of length of 15000 octets for messages in bit-oriented code forms, to the detection and cancellation of duplicated messages, to the use of groups GGgg and ii of the abbreviated heading, and to the use of CCITT group 4 standard for coded digital fax.

The three recommendations were approved by the forty-third session of the Executive Council (Geneva, May 1991).

C. Information on the operation of the GTS

1. Catalogue of Meteorological Bulletins (Publication NO. 9, Volume C, Chapter I)

1.3 Changes to bulletins
