

# **OPERATIONAL**

*news letter*

Volume 1995 — No. 2

(February 1995)

**WORLD WEATHER WATCH**

World Meteorological Organization  
GENEVA

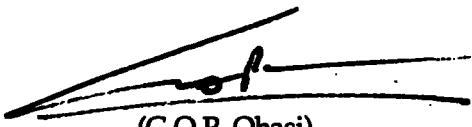

The WMO Secretariat would like to express its  
appreciation to all those who have contributed material  
to the "Operational Newsletter". ■

## **Foreword**

As you are aware, all the information on changes to the operation of the World Weather Watch (WWW) and Marine Meteorological Services (MMS) is being assembled and distributed by the Secretariat on a monthly basis to facilitate updating and follow-up action. In this connection we have created the "OPERATIONAL NEWSLETTER" to provide you with the latest operational information on WWW and MMS.

A special table is included in the "OPERATIONAL NEWSLETTER" in Annex I - *Global Observing System* to assist Members in reporting changes in the present status of implementation of observing programmes of SYNOP, TEMP and PILOT reporting stations.

Your co-operation in ensuring that the above information reaches the appropriate operational units of your service is greatly appreciated.

(G.O.P. Obasi)  
Secretary-General

FOREWORD .....	iii
----------------	-----

## Annex I

### GLOBAL OBSERVING SYSTEM

A. GOS regulatory or guidance material .....	1
3. Guidance material on instruments and observing methods .....	1
3.1 WMO Catalogue of Radiosondes and Upper-air Wind Systems in use by Members.....	1
C. Information on operational status of elements of the surface-based sub-system.....	1
1. Publication No. 9, Volume A - Stations .....	1
1.1 New stations.....	1
1.2 Deleted stations.....	3
1.3 Changes to existing stations.....	3
1.5 Temporary changes.....	5
4. Automatic Marine Stations .....	5
4.3 United States of America.....	6
4.3.1 Moored Buoys .....	6
4.3.2 Drifting Buoys.....	8
4.4 France.....	10
4.4.1 Moored Buoys.....	10
4.4.2 Drifting Buoys.....	10
4.6 United Kingdom of Great Britain and Northern Ireland .....	10
4.6.1 Moored Buoys (including light vessels, islands and fixed platforms) .....	10
4.6.2 Drifting Buoys.....	11
5. ARGOS service .....	12
5.1 ARGOS monthly status report.....	12
•Reports handled by ARGOS Service .....	12
•Reports for insertion into the GTS.....	12
•GTS coding statistics of platforms reporting through ARGOS and distributed over the GTS .....	13
8. Feed-back from Members to the Secretariat on any changes in the observing network.....	13
Appendix I	
•Feed-back from Members to the Secretariat on any changes in the observing network.....	15
•Explanatory Notes.....	16

# Contents

---

## Annex III

### GLOBAL TELECOMMUNICATION SYSTEM

C. Information on the operation of the GTS .....	17
1. Catalogue of Meteorological Bulletins (Publication No. 9, Volume C, Chapter I) .....	17
1.1 New bulletins .....	17
1.3 Changes to bulletins.....	17
2. Transmission Schedules (Publication No. 9, Volume C, Chapter II).....	18
2.3 Changes in schedules/technical specifications .....	18

## Annex V

### MARINE METEOROLOGICAL SERVICES (MMS) AND RELATED OCEANOGRAPHIC ACTIVITIES

C. Information on the operation of Marine Meteorological Services.....	19
1. Broadcasts for shipping and other marine activities (Publication No. 9, Volume D, Part A) .....	19
1.3 Changes in schedules/technical specifications .....	19
2. Marine meteorological services available for main ports (Publication No. 9, Volume D, Part C) .....	20
5. Coastal radio stations (Publication No. 9, Volume D, Part B).....	22
5.3 Changes to existing stations .....	22

### ORDER FORM

## Annex I

# GLOBAL OBSERVING SYSTEM

### A. GOS REGULATORY OR GUIDANCE MATERIAL

### 3. GUIDANCE MATERIAL ON INSTRUMENTS AND OBSERVING METHODS

#### 3.1 WMO Catalogue of Radiosondes and Upper-air Wind Systems in use by Members

**C. Information on the operational status of elements of the surface-based sub-system (continued)**

**1. Publication No. 9, Volume A - Stations / 1.5 Temporary changes**

### 1.5 Temporary changes

- **Notification for Australia**

**That Australian summer time will cease in:**

- New South Wales, the Australian Capital Territory at 1500 UTC on 4 March 1995;
- Victoria, South Australia and Tasmania at 1500 UTC on 25 March 1995.

**That summer time was not implemented in:**

- Queensland, Western Australia or the Northern Territory.

**That surface observations will revert to normal program in:**

- New South Wales and the Australian Capital Territory from 1500 UTC on 4 March 1995;
- Victoria, South Australia and Tasmania from 1500 UTC on 25 March 1995.

**That no changes will be made to the time of surface observations in:**

- Queensland, Western Australia or the Northern Territory.

**That Upper-air observations will revert to normal program in:**

- Victoria, South Australia and Tasmania from 1500 UTC on 25 March 1995.
- All other Australian Upper-air stations will revert to normal program from 1500 UTC on 4 March 1995.

- **Notification from the Philippines**

Please find additional information effective 1 February 1995 regarding following stations:

98333	Baler Synoptic	15°46'N / 121°34'E	6 metres	Converted to PAGASA Meteorological Information Centre
98334	Baler Radar	14°45'N / 121°38'E	178 metres	upgraded to a Radar-Synoptic Station

### 4. AUTOMATIC MARINE STATIONS

**KEY: Observed or Technical Parameters**

Column	Parameters
1	Wind direction and speed
2	Air temperature
3	Air pressure
4	Pressure tendency
5	Sea-surface temperature
6	Wave period and height
7	Wave spectra
8	Peak wind gust

Column	Parameters
9	Subsurface temperatures
10	Relative humidity
11	Visibility
-	Parameter not observed
X	Buoy observes this parameter
.	Data under evaluation, not reported

**C. Information on the operational status of elements of the surface-based sub-system (continued)****4. Automatic marine stations / 4.3 United States of America****4.3 United States of America**

List of U.S.A. Ocean Data Acquisition System (ODAS) included in the **February 1995 Data Platform Status Report** of the Data Buoy Centre of the National Oceanic and Atmospheric Administration (NOAA). Data from moored buoys and platforms are collected by geostationary meteorological satellites and reports are distributed on the GTS in SHIP code. Data from drifting buoys are collected by the ARGOS system and distributed on the GTS in BUOY code.

**4.3.1 Moored Buoys**

**5. ARGOS SERVICE****5.1 ARGOS monthly status report (January 1995)**

Date of statistics computation : 1 February 1995

**•Reports handled by ARGOS Service (list of monthly collected ARGOS platforms sorted by type of platform)**

Drifting Buoys	:	943
Marine Stations	:	7
Moored Buoys	:	299
Fixed Stations	:	416
Terrestrial Animals	:	71
Marine Animals	:	94
Birds	:	39
Balloons	:	15
TOTAL :		1884

**•Reports for insertion into the GTS (list of monthly collected GTS platforms on every GTS site sorted by type of platform)**

**Transmission to RTH Paris:**

Drifting Buoys	:	101
Fixed Stations	:	8
Marine Station	:	1
Moored Buoy	:	1
Synoptic PTT	:	1

**C. Information on the operational status of elements of the surface-based sub-system (continued)**  
**5. Argos Service / 5.1 Argos monthly status report (continued)**

**Transmission to NWS Washington:**

Drifting Buoys	:	448
Fixed Stations	:	8
High Speed	:	-
Moored Buoys	:	61

**•GTS coding statistics of platforms reporting through ARGOS and distributed over the GTS**

BATHY =	342
BUOY =	122817
SYNOP =	3072
TOTAL:	126231

**8. FEED-BACK FROM MEMBERS TO THE SECRETARIAT ON ANY CHANGES IN THE OBSERVING NETWORK**

In view of the difficulties experienced in identifying non-implemented observing stations or implemented stations which are closed or suspended for a certain period, or stations making observations but not reaching their NMCs, a special table accompanied by explanatory notes (see Appendix I) is attached, to serve as feed-back from Members to the Secretariat on any changes of the present state of implementation of observing programmes of SYNOP, TEMP and PILOT reporting stations.

Members are urged to fill in the special table as and when appropriate, and to return it to the Secretariat before the 20th of each month to enable changes to be included in the next "OPERATIONAL NEWSLETTER".

**Feed-Back from Members to the Secretariat on any changes in the Observing Network**  
**(Explanatory Notes overleaf)**

---

Country: \_\_\_\_\_

Date effective: \_\_\_\_\_

Global Exchange:       Regional Exchange:   
 (please tick the appropriate box)

A		B		C	D							E		F	G
Station		Latitude	Longitude	Bulletin Identification	Implementation of Observing Programme							Elevation		Pressure Level	Remarks
Index No.	Name			TTAAii CCC	00	03	06	09	12	15	18	21	HP	H/HA	
<b>1. SYNOP</b>															
<b>2. TEMP</b>															
<b>3. PILOT</b>															

## Explanatory Notes

1. Separate tables should be prepared for global exchange and regional exchange respectively. These tables should contain information concerning any changes of the present state of implementation of observing programmes of SYNOP, TEMP and PILOT reporting stations (for Volume A and the Catalogue of meteorological Bulletins), and particularly for stations included in the Regional Basic Synoptic Networks (RBSN).

2. For entries in these tables, the following should be taken into account:

**Column A:** The index number (IIii) and name of each station should be entered in case of any changes in the observing programmes of the stations;

**Column B:** The Latitude and the Longitude in degrees and minutes with the appropriate letters (N, S, E and W) should be indicated;

**Column C:** The TTAAii CCCC of the abbreviated heading of the meteorological bulletins which contains reports from the station should be inserted;

**Column D:** "X" for implementation and "-" for non-implementation should be inserted as appropriate. In order to easily identify changes in the programme, these should be marked in red;

**Column E:** HP= the elevation of the station in metres (the datum level to which barometric pressure reports at the station refer);

H = the elevation of the ground, in metres, (average level of terrain in immediate vicinity of station), is given for stations not located on aerodromes;

HA = the official altitude of the aerodrome is given for stations located on aerodromes and is indicated by the letter "A" in the column "Other observations and Remarks" of Volume A;

**Column F:** For those stations not indicating pressure reduced to mean sea level (group 4PPPP) in their synoptic reports, the entry in this column shows which information is reported in lieu of group 4PPPP:

STATION	Pressure at station level reported using group 3P <sub>o</sub> P <sub>o</sub> P <sub>o</sub> P <sub>o</sub>
1000 hPa	
850 hPa	geopotential of the given standard isobaric surface
700 hPa	reported using group 4a3hhh
500 hPa	

**Column G:** Reasons for temporary suspension of observing programmes and an expected date of resumption of the programmes should be given as far as possible. Non-standard collection and/or distribution times should also be included, and also possible alternate observing stations, as appropriate.

3. These tables should be sent to the Secretariat before the 20th of the month for inclusion in the "OPERATIONAL NEWSLETTER", as appropriate.

### Annex III

## GLOBAL TELECOMMUNICATION SYSTEM

### C. INFORMATION ON THE OPERATION OF THE GTS

#### 1. CATALOGUE OF METEOROLOGICAL BULLETINS (PUBLICATION NO.9, VOLUME C, CHAPTER I)

##### 1.1 New bulletins

- Antarctic operated by Italy

Abbreviated Heading	Time Group (GG)	Content of Bulletin
SMAA01 LIIB	00, 06, 12, 18	89661 89662 89666
SIAA20 LIIB	03, 09, 15, 21	89661 89662 89666
USAA01 LIIB	00, 12	89662
UKAA01 LIIB	00, 12	89662
ULAA01 LIIB	00, 12	89662
UEAA01 LIIB	00, 12	89662

##### 1.3 Changes to bulletins

- Notification from Germany that effective 31 March 1995

- (a) The content of the meteorological bulletins SMDL01 EDZW and SIDL21 EDZW will be changed as follows:

Abbreviated Heading	Time Group (GG)	Content of Bulletin
SMDL01 EDZW	00, 06, 12, 18	10004 10015 10020 10035 10063 10147
SIDL21 EDZW	03, 09, 15, 21	10162 10184 10224 10270 10338 10361 10393 10400 10438 10469 10488 10506 10548 10637 10685 10738 10763 10788 10852

- (b) The abbreviated headings of the following meteorological bulletins will be changed as follows:

Old abbreviated headings	New abbreviated headings
SM/SIDL22 EDZW	SM/SIDL42 EDZW
SM/SIDL23 EDZW	SM/SIDL43 EDZW

**C. Information on the operation of the GTS (continued)**

- (c) New meteorological bulletins for bilateral exchange will be added to Catalogue of Meteorological bulletins as follows:

SM/SI/SNDL44 EDZW
SM/SI/SNDL45 EDZW
SM/SI/SNDL46 EDZW
SM/SI/SNDL47 EDZW
SM/SI/SNDL48 EDZW
US/UK/UL/UEDL43 EDZW
UP/UG/UH/UQDL43 EDZW

The complete updated list of these meteorological bulletins will be published in the May 1995 Edition of Catalogue of Meteorological Bulletins.
